Missile Systems Division
Lockheed Aircraft Corporation
Sunnyvale, California

Gentlemen:

Reference is made to your letter of 27 August 1958 and the list of special test equipment valued at \$24,140.00 attached thereto.

The purpose of this letter is to confirm previous approvals of your acquisition of these items granted by Colonel Sheppard and myself.

Pending an appropriate amendment to Contract No. RT-100, which will incorporate ASFR 13-504, you are requested to comply with the provisions thereof regarding Special Tooling. This is applicable to your subcontractors also.

In the future, prior to acquisition of this type of items or other equipment, which in your opinion are possibly in Air Force Inventory, it is requested that a list of this equipment be submitted to Project Headquarters who will determine their availability from stock.

Very truly yours,

Dear Dan:

Enclosed are the electronic equipments which we have ordered for our LMSD use. These were approved by Colonel Sheppard and verbally approved by you over the telephone. The prices are fairly accurate, although there may be some slight variation in the firm orders.

Very truly yours,

Jack
